Dear All,

I just spoke to OMB Bill Hamele about an agenda. There is NO agenda. He advised that this is an OMB coordinated meeting. GSA will be on a listening mode and OMB will turn to us at the right time when GSA inputs are necessary. OMB is bringing a timeline (NOT our project plan/timeline) they would like to brief and get the buy in. Just keeping everyone informed. See you at 11 am.

Alex

Dear Henry,

Good morning!

I haven't forgotten you! We had a few loose ends to workout on the Instructions documents. We (OMB and GSA team) just finished our second round meeting. We have resolved all issues associated with the Instructions documents and will have them finalized by the end of the day.

I am copying OMB Colleagues and GSA leadership on this email for guidance on a date convenient to everyone for the briefing. Today is premature as we are finalizing these documents.

Thank you so much for your kind patience.

Best Regards,
Alex

Dear Respected Colleagues,

Good evening!

Per your guidance on Tuesday at our large meeting, GSA and OMB team diligently and tirelessly worked to resolve all issues discussed. I cannot find enough words to thank Angela Donatelli and Bill Hamele, and the GSA "A" team for your unconditional support under severe time constraints. Attached are the final Draft documents for our use. We are searching for a technical writer/editor to review the Instructions before they are issued. Please let me know if you have any suggestions!

Next steps -

1. Once confirmed/scheduled, OMB and GSA team will brief the WH staff on Monday!
2. We are meeting with a handful of small and large agencies separately on next Tuesday to get a feel.
3. The larger team will meet on Wednesday or Thursday to brief.
4. Department Notification messages from OMB will go out to all agencies!
5. Once gets the OK, we will launch the call as scheduled on February 15.

Thank you. Always available to discuss at your convenience!

Best Regards,
Alex

Dear All,

Good morning. Heads up!

Henry Gindtt, the White House Staff focused on Real Property Initiative and the implementation of the two passed Bills, asked that he attend our 12 pm meeting. Primarily he wants to meet and greet all players and put face to the names.

I just did not want you to be surprised. Thank you.

Monica Valentine is managing the leases effort.

I believe Ed Gramp has been our main point of contact. The letter they submitted in response to the ED was attributed to Edward Gramp, Jared Leicht, and April Pratt.

There was also a representative from the leasing office - J. Kenneth Schelbert - who provided (with others from the OCFO) a briefing at the April 2014 meeting.

I've copied Monica so she will be aware and in case she can add any information.

I asked Wendy Payne who on her staff is coordinating and also who was their contact at GSA. Gerard asked the same question this morning. As soon as I hear I will let you know. Since the Jan 6 date has passed you should send comments to Wendy. I am sure given GSA role and stature FASAB would want to hear any opinions the agency has on this issue. You can always express your concerns to me. At worst we can listen to comments and recommend a public hearing which will open this up again to further discussion.

Angela,

Attached for your review and approval is a reprogramming request for the Jacob Javits Federal Office Building. The proposed funding source is the Cyber Campus project. I have attached the letters to the appropriators and authorizers, the associated prospectus, and the latest unobligated balance report.

Please let us know if you have any questions or concerns.

Hi Norm,

Dustin Brown informed me you have some questions relating to SES management during transition periods so I wanted to contact you and offer an opportunity to chat and provide any assistance.

As a start, here is some basic information on Presidential transitions and the restrictions on certain SES actions during periods of transition:

● 2016 Presidential Transition Guide issued 10-31-16.

<https://www.opm.gov/about-us/our-people-organization/support-functions/executive-secretariat/presidential-transition-guide-2016.pdf>

● 120-day moratorium on involuntary reassignments of career SES after appointment of agency head or noncareer supervisor.

An SES career appointee may not be involuntarily reassigned within 120 days of the appointment of a new agency head (including recess appointment) or within 120 days after the appointment of a career appointee's new noncareer supervisor who has the authority to make that career appointee's initial performance appraisal. A voluntary reassignment during the 120-day period is permitted, but the appointee must agree in writing before the reassignment

● 120-day moratorium on involuntary removals of career SES after appointment of agency head or noncareer supervisor.

An SES career appointee may not be involuntarily removed within 120 days of the appointment of a new agency head (including recess appointment) or within 120 days of the appointment of the career appointee's most immediate noncareer supervisor who has authority to remove the appointee. Exceptions for removals required by unsatisfactory ratings issued prior to the appointment. Disciplinary actions under chapter 75 are not covered by this moratorium.

● 120-day moratorium on performance ratings following new President's term

Agencies cannot appraise or rate career SES appointees' performance for 120 days following the inauguration of a new President. This includes the supervisor's initial appraisal, higher level official's review, a Performance Review Board's recommendations, and an appointing authority's final rating.

● Restrictions on awards

1. Presidential election period runs June 1 through January 20. This statutory prohibition includes both cash and time-off awards for noncareer, limited term, and limited emergency SES appointees.

2. President's freeze on discretionary awards, bonuses and similar awards to politically appointed officials that was instituted 8/3/2010 continues in effect.

Please let me know if you have any other questions or if you'd like to further chat.

Hello Norm.

I hope this message finds you well.

I wanted to let you know that I made it to GSA after all. I am transitioning from OMB to GSA (Federal Permitting Improvement Council in OGP), where I'll work on FAST-41/streamlining the permitting process.

I hope that once I get settled, we can grab a cup of coffee. I believe everyone needs a mentor, both formal and informal, and would love to continue the conversation we started. If amenable, I'll contact Brenda to set something up.

In the meantime, my contact information is below.

Dear respected Colleagues,

Per your request, attached are the draft letters to the agencies: 1) to agencies already submit data to FRPP MS; and, 2) agencies Reporting for the FIRST time. We have incorporated LP's (Richard) comments, but have not yet shared these with OMB.

Please review and edit in google docs (links provided) or the attached word docs. Need you clearance as soon as possible as the WH staff is requesting to get these out. Once you clear, we will share with OMB for clearance. Thank you for your kind assistance.

Dear Friends and Colleagues -

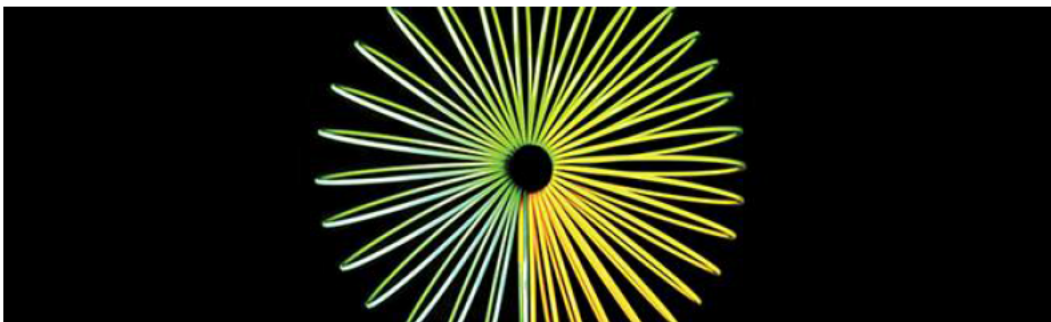

I would like to personally invite you to an exciting event the afternoon of Thursday, October 20, relating to the release of my new book. I do hope that you and perhaps a colleague will join us for a lively discussion on how to lead successfully within the public sector, especially during times of transition. The discussion will be followed by a networking reception (with plenty of food and drink!) at Charlie Palmer Steak DC, in the shadow of our Nation's Capitol.

I look forward to seeing you there!

Ira

For U.S. federal government attendees

Deloitte seeks to comply with federal executive branch gift rules and the Presidential Executive Order on Ethics (and related Ethics Pledge) for appointees. Deloitte has organized this event making a good-faith effort to meet the requirements of a “widely attended gathering,” as defined in federal government ethics regulations applicable to executive agency employees and officials. It is recommended that employed government invitees consult their applicable agency ethics official regarding attendance at this event. If you are required by applicable rules to pay any part of the costs of attending this event, or if you would prefer to pay the fair market value for this event (even if not required to do so), please contact Julia Rutherford at jrutherford@deloitte.com or [617-875-3974](tel:617-875-3974).

As used in this document, "Deloitte" means Deloitte Consulting LLP, a subsidiary of Deloitte LLP. Please see www.deloitte.com/us/about for a detailed description of the legal structure of Deloitte LLP and its subsidiaries. Gerard –

The attached PDF provides the GSA comments. I see from the files that we received this via email from Robert Smalskas on January 7th.

We are in the process of summarizing all the input for the Board meeting on February 22nd. The summary will be completed by February 10th.

Please let us know as soon as possible if you have further input.

Regards,
Wendy

Wendy, when was the GSA input and would like to take the opportunity to review whatever you received and make sure you have the collective input of Norm, Kathy and I. Kathy leads the Accounting and Financial Operations areas here reporting to me.

thanks,

Gerard

Below please find an email from Wendy Payne with the contacts on leases. Hope this helps. As I said, if you all need more interaction on the propose item, now that the comment window is closed please contact Wendy directly but OMB still represents the whole government to FASAB so keep me in the loop.

Monica Valentine is managing the leases effort.

I believe Ed Gramp has been our main point of contact. The letter they submitted in response to the ED was attributed to Edward Gramp, Jared Leicht, and April Pratt.

There was also a representative from the leasing office - J. Kenneth Schelbert - who provided (with others from the OCFO) a briefing at the April 2014 meeting.

I've copied Monica so she will be aware and in case she can add any information.

Dear Bill,

Good morning!

Flávio would love to attend the 11 am meeting. I know you told me that there is a space limitation in the conference room for this meeting.

Let us know if it is possible to add. Thank you, Bill.

Dear All,

I just spoke to OMB Bill Hamele about an agenda. There is NO agenda. He advised that this is an OMB coordinated meeting. GSA will be on a listening mode and OMB will turn to us at the right time when GSA inputs are necessary. OMB is bringing a timeline (NOT our project plan/timeline) they would like to brief and get the buy in. Just keeping everyone informed. See you at 11 am.

Dear Maren,

Good morning!

Thank you for your excellent comments and observations. The initial timing of the reporting requirements (less than 2 months to submit the data on a huge inventory of assets) may play into the ability to gather some of the data. Therefore, an interim and a longer term data strategy may help us to achieve our collective goals.

We will collaborate and get back to you with our thoughts/solutions. Thank you.

Best Regards,

Alex

Henry,

We have data on SF per person for office buildings only and only for the last three years.

So the trend data is not that long and only covers s subset of the portfolio (offices).

Thank you for your excellent comments and observations. The initial timing of the reporting requirements (less than 2 months to submit the data on a huge inventory of assets) may play into the ability to gather some of the data. Therefore, an interim and a longer term data strategy may help us to achieve our collective goals.

We will collaborate and get back to you with our thoughts/solutions. Thank you.

Thank you, Bill!

Just for information purposes, in addition,

In order to comply with provisions of H.R. 4465, GSA has put in place a **"The Standard Utilization Rate Group"** to examine the FRPP building categories and develop recommendations on whether each category should be supported by a standard utilization metric. The examination will include a review of industry literature on common utilization rates and a review of GSA and agency data. The group will document the reason(s) it recommends standard utilization rates not be developed for specific FRPP building categories. This group is stand-alone due to the specialized nature of the analysis and the lack of specific direction in the statute. The utilization rates developed by this group will be included in the standards and criteria developed by the GSA's other Working Group - **The Recommendation Template, Standards, and Evaluation Criteria Working Group**. These Working Groups are currently hard at work to develop their recommendations by the end of the month.

Thank you.

Alex

My first step will be to send this to DHS for concurrence before OMB reviews. This is standard practice over the last several years as a result of all the disconnects. Do you have the names of the DHS staff that concurred on the report? It will significantly cut down on time. Otherwise we send to DHS budget and they go searching.

Dear All,

Below is the well researched draft response for OMB Karen Lee. Please let me know if you are OK for me to send this. If you have any edits, please let me know. **Please send me an OK.** This response was drafted in close coordination with GSA IT Team. Thank you.

Dear Karen,

Per your request, we have extensively researched and this response was developed in close coordination with GSA IT Team.

When the new real property reform laws were enacted, GSA conducted a thorough alternatives analysis to determine the most

cost effective and efficient options to collect the required data. We also considered the laws' relatively short deadlines and the

fact that agencies will be required to report their inventories for the foreseeable future.

GSA has chosen to use templates in the form of Excel spreadsheets to collect the data required by the two laws. Agencies that

have already reported data to the Federal Real Property Profile Management System (FRPP MS) will receive a different

template containing fewer fields than the template to be provided to agencies that have never reported to FRPP MS. At the

same time, GSA is adapting FRPP MS to capture all data required under the new laws.

Agencies will have two options to submit their data. They may (1) enter data subject to business validation rules that are built

into the spreadsheet to prevent data errors; or (2) send GSA an Excel file with data directly extracted from their IT systems. GSA

has technical staff available to work with the agencies to ensure the validation rules are followed regardless of the method

agencies use to submit their data. If agencies are extracting data from their systems, they will need to send their file with the

data fields in the same order as they appear in GSA's template. Agencies will have the flexibility to split the files by bureau to

distribute the workload. They are not required to send one massive file for their entire agency.

GSA's FRPP MS development team will load each agency's file into FRPP MS. Our developers are currently updating FRPP MS to

incorporate the new data elements and associated business validation rules, just as they are shown in the two data collection

templates. This is a two tiered approach to ensure that the data associated with these new data elements follows a robust set

of business validation rules that have been used in collecting prior FRPP data.

Having agencies report their data directly to FRPP MS by [April 15 2017](#), is not possible at this time for two reasons:

1)

GSA does not have sufficient time to develop and implement a one-time data addition functionality into FRPP MS. Any new

data collection to capture the new data elements, would require agencies to clear all FY 2016 FRPP data and then re-submit it

along with the new data elements. Clearing and re-submitting data would likely reduce data quality and accuracy.

2)

It would disrupt the mandatory data validation and verification process agencies are required to complete by October 2017.

After carefully considering other options, GSA has decided to use FRPP MS for the data collection because:

3)

Most of the data required by the two real property laws is already housed in FRPP MS.

4)

Using FRPP MS enables GSA to use a single system as the inventory database and sets the framework for future data reporting.

5)

GSA has already made a significant investment in building business validation rules and other features within FRPP MS to

improve the quality, transparency, and analysis of real property data.

We do not believe using MAX Collect is a practical option for the data collection for the following reasons:

6)

MAX Collect or any other new system would have to be stood up from scratch, a process that could require anywhere from 12

to 16 months to develop and deploy. Developing appropriate business rule validations for the data elements and establishing

user accounts would also require significant time.

7)

Even if MAX Collect were immediately functional, we would have to merge a significant amount of FRPP data into the system

to allow for complete analysis, creating the potential for significant data quality issues.

8)

The funding stream for development and a contract vehicle that would be used to modify MAX Collect has not been identified.

9)

GSA would have difficulty making a business case for choosing MAX Collect to meet the requirements of this effort. The Federal

Information Technology Acquisition Reform Act (FITARA) gives GSA CIO authority over all IT decisions within the agency and

OGP IT (i.e., FRPP MS) efforts must support GSA's IT consolidation strategy (i.e., draft order CIO 2130.2 and draft order CIO

investments. Salesforce, the platform for FRPP MS, is a core OCIO platform whereas MAX Collect is not.

10)

GSA has not confirmed that MAX would even have the capability and space requirements to collect the data on a government-

wide basis.

GSA's cost benefit analysis justifies the approach that GSA has selected to remain compliant with the requirements of the laws.

Thank you. If needed, we can expeditiously coordinate a briefing here at GSA at your convenience with our technical team.

Thank you for our continued strong partnership and collaboration.

Alex

Hi Alex, just following up on the data collection mechanism for our February 15th data call. The excel spreadsheet doesn't seem workable for agencies - and we can't have agencies burn all there time fat fingering in their data (rather than spend their time getting data from their facilities folks & ensuring that it is of quality. We need GSA to offer a couple other options of how we can get the data from agencies - we can't have agencies miss the deadlines. Can you provide a couple other options outside of the spreadsheet?

Dear Respected Colleagues,

Good evening!

Per your guidance on Tuesday at our large meeting, GSA and OMB team diligently and tirelessly worked to resolve all issues discussed. I cannot find enough words to thank Angela Donatelli and Bill Hamele, and the GSA "A" team for your unconditional support under severe time constraints. Attached are the final Draft documents for our use. We are searching for a technical writer/editor to review the Instructions before they are issued. Please let me know if you have any suggestions!

Next steps -

1. Once confirmed/scheduled, OMB and GSA team will brief the WH staff on Monday!
2. We are meeting with a handful of small and large agencies separately on next Tuesday to get a feel.
3. The larger team will meet on Wednesday or Thursday to brief.
4. Department Notification messages from OMB will go out to all agencies!
5. Once gets the OK, we will launch the call as scheduled on February 15.

Thank you. Always available to discuss at your convenience!

Best Regards,
Alex

Subject: Notification: HHS/ACF/ORR will discontinue use of Fort Bliss on March 1

UCG Colleagues:

The Office of Refugee Resettlement (ORR) at the U.S. Department of Health and Human Services (HHS) will discontinue its use of the Fort Bliss temporary shelter for unaccompanied children as of March 1, 2017. The site was opened to shelter children in September 2016.

As the number of children referred to HHS rose last summer and fall, the Fort Bliss Doña Ana Complex temporary shelter fulfilled a critical, time-sensitive need to provide shelter and care for vulnerable populations, enabling HHS to meet its legal responsibility to continue to provide care to every unaccompanied child referred by the Department of Homeland Security.

Pursuant to the Memoranda of Agreement with the Department of Defense (DoD), HHS had planned to use the facility until March 31, 2017. However, due to a recent dip in the number of children referred to HHS and the on-going discharge of children from HHS care to safe and appropriate placements with sponsors, HHS is able to discontinue use of the shelter earlier than expected.

By February 15, 2017, all unaccompanied children currently being sheltered at the Fort Bliss Doña Ana Complex will be transferred to one of ORR's permanent shelter providers or released to an appropriate sponsor while they await their immigration proceedings. Remediation will begin immediately to restore the site to DoD in its original state.

HHS currently operates a network of over 100 shelters in 11 states and has a proven track record of accountability and transparency for program operations, as well as being a good neighbor in the communities where shelters are located. Over the last year, ORR at HHS has increased the capacity of permanent shelter providers from 7,900 to 9,300 beds.

ORR is continuously monitoring bed capacity available as well as information received from interagency partners on migration trends to inform future decisions about capacity. So ORR can continue to be prepared for unpredictable shifts in caseloads, it will continue to identify potential sites for future temporary shelters to be ready to expand capacity if needed.

Local and congressional officials will continue to be informed as decisions about temporary shelters are made.

Please contact Jonathan White (jonathan.white@acf.hhs.gov) if you have any questions.

v/r,
Jonathan

I have a conflict for the first 30 minutes. Is a 10:30 start time possible? Also, Bill and I would be happy to host at OMB. This would help with the 10:30 start time. I can send a link for clearance into the NEOB is that works for folks.

Hi Michael / Laura / Gregg,

I'm not sure if you guys got word of this yet but OMB has returned the Javits reprogramming request and has advised GSA to include in as part of the FY 2018 request.

(b) (5)

This might be old news as it came in Friday afternoon but wanted to make sure you are aware.

Let me know if you would like to discuss.

Thanks,

Jason

Angela,

Attached for your review and approval is a reprogramming request for the Jacob Javits Federal Office Building. The proposed funding source is the Cyber Campus project. I have attached the letters to the appropriators and authorizers, the associated prospectus, and the latest unobligated balance report.

Please let us know if you have any questions or concerns.

Thank you.

Hi Michael / Laura / Gregg,

I'm not sure if you guys got word of this yet but OMB has returned the Javits reprogramming request and has advised GSA to include in as part of the FY 2018 request.

(b) (5)

This might be old news as it came in Friday afternoon but wanted to make sure you are aware.

Let me know if you would like to discuss.

Thanks,

Jason

Angela,

Attached for your review and approval is a reprogramming request for the Jacob Javits Federal Office Building. The proposed funding source is the Cyber Campus project. I have attached the letters to the appropriators and authorizers, the associated prospectus, and the latest unobligated balance report.

Please let us know if you have any questions or concerns.

Thank you.

Hi everything,  
OCIA mentioned this week's meeting would be cancelled. I want to give a heads up that at this coming Monday (1/30) PBS HQ 9am meeting the Commissioner would like to do a full status run down of all prospectuses. Please make sure the sheet is updated and be ready to have you or your executive ready to speak on the status.Thank you,  
-Gregg

Dear All,

Good morning. Heads up!

Henry Gindtt, the White House Staff focused on Real Property Initiative and the implementation of the two passed Bills, asked that he attend our 12 pm meeting. Primarily he wants to meet and greet all players and put face to the names.

I just did not want you to be surprised. Thank you.

Best Regards,  
Alex

Good afternoon everyone,

This is a calendar hold for the February meeting of the Communications & Inventory Working Group of the NSTC Subcommittee on National Security Laboratory RDT&E Facilities & Infrastructure.

The meeting will be held from 10:00AM – 12:00PM on Wednesday, February 15th at the Science and Technology Policy Institute(STPI), located at 1899 Pennsylvania Ave. NW Washington, DC 20006. We will also be hosting a call-in line and GoToMeeting link for those who are unable to attend in person.

An agenda and meeting materials will be sent out a week prior to the meeting.

If you have any questions, please do not hesitate to reach out by email (b) (6) or by phone (202-419-3721). Thank you very much.

Respectfully,

Ethan A. Klein  
Science Policy Fellow

Dear Colleagues,

Good morning!

Need your kind guidance. Henry Gindt from the WH just called and requested copies of the templates and the Instructions documents (attached we finalized yesterday).

I told him that I will get back. Please let me know if I can share. I want to avoid any misunderstandings. Thank you.

Best Regards,  
Alex

Dear respected Colleagues,

Per your request, attached are the draft letters to the agencies: 1) to agencies already submit data to FRPP MS; and, 2) agencies Reporting for the FIRST time. We have incorporated LP's (Richard) comments, but have not yet shared these with OMB.

Please review and edit in google docs (links provided) or the attached word docs. Need your clearance as soon as possible as the WH staff is requesting to get these out. Once you clear, we will share with OMB for clearance. Thank you for your kind assistance.

Good afternoon everyone,

- The Communications & Inventory Working Group of the NSTC Subcommittee on National Security Laboratory RDT&E Facilities & Infrastructure would like to schedule the February meeting of its membership.
- In early December, we met with communications representatives to provide guidance for the development of a subcommittee communications strategy describing future subcommittee communications.
- An agenda and draft outline of the communications strategy will be provided a week prior to the meeting to allow sufficient time for feedback from the working group membership.
- The meeting will be held during the week of February 13-17 at the offices of the Science and Technology Policy Institute and a call-in number will also be provided.
- Please provide your availability as soon as possible using the Doodle link here: <http://doodle.com/poll/4bi7x3rqh8e95nk9>.

If you have any questions, please do not hesitate to reach out by email or phone.

Respectfully,

Ethan A. Klein

Science Policy Fellow

Hi Eric,

John Peters (cc'd) is part of our GSA OGC office. In order to get Jenny over as an assignee, he would have to draft assignee paperwork with DHS legal. Would you possibly be able to make that connection to allow that to take place? Thanks.

Hi all,

Wanted to document our decisions and next steps for Jenny Kim to be assigned from the DHS team as a PM on [login.gov](http://login.gov). Joel and I agree on the role description below, and Jenny is excited to continue working with the team.

Jenny will remain a DHS employee on assignment to the [Login.gov](http://login.gov) team. It is in DHS's interest to have a deep in-house understanding of [Login.gov](http://login.gov), and she'll be able to assist with upcoming DHS use cases, such as at CBP with Global Entry. We'll treat this like other project assignments - it doesn't have a fixed duration but we'll expect to evaluate how things are going regularly and more explicitly so after six months.

Next steps for Joel / [Login.gov](#) team:

- \* Work with Amy Barker on assignee paperwork for access to GSA systems
- \* Submit a Priorities.md PR moving Jenny to [Login.gov](#)
- \* Announce to [Login.gov](#) team - believe this is good to go today

Next steps for DHS team:

- \* Announce to team - ideally we'll target our team meeting today
- \* Handle any assignee paperwork from the DHS side

Excited to make this happen.

Thanks,

Eric

If at such time, she needs to move over to be an 18F team representative, we will ensure she has an agreement in place. Does that make sense?

All,

Here is the text of the EO on reducing regulations and controlling regulatory costs.

A few highlights:

Section 2 - Regulatory Cap for FY 2017 requires we identify at least two regulations for elimination whenever we issue a proposed rule.

2b. Limits the total regulatory cost for FY 2017 to zero.

2c requires that any new incremental costs associated with new regulations be offset by the elimination of existing costs associated with two regulations.

2d Specifies OMB will provided guidance on implementation.

Section 3 requires beginning in FY 2018 that for each regulation that increases costs, the offsetting regulations be identified.

Section 3c - prohibits issuance of any regulation not included in the most recent Unified Regulatory Agenda.

Section 3d specifies that during the Presidential budget process, that OMB will give agencies a total incremental cost allowed for new regulations. That total may allow an increase or require a decrease.

----- Forwarded message -----

All - The President signed this executive order this morning (attached is an unsigned version).

We are in the process of developing the OMB guidance required by Section 2(d). To assist in this effort, we would appreciate it if you could identify by COB today specific questions concerning the implementation of Section 2 that you believe OMB should address in its guidance.

Thanks.

Jack,

Last evening the President's Chief of Staff signed a memorandum freezing all regulations (see attached). Section 2 of this memorandum requires agencies immediately withdraw regulations from the Office of the Federal Register (OFR). This needs to be done as soon as possible. For instance, we know there was at least one proposed rule regarding the FAR pending at OFR on Thursday. There may well be other GSA rules due to be put on public inspection at OFR on Monday. Your acting regulatory policy officer (sometimes called "regulatory second") has been informed of this requirement and should be working on the paperwork necessary to withdraw these rules. I strongly suggest you work with them to make sure timely compliance today. More guidance may be forthcoming.

Thanks and let me know if you have any questions,

#### **Detail Opportunity at the White House Counsel's Office**

The White House Counsel's Office is seeking one or more short-term employees for detail (up to 6 months) to assist the Ethics and Compliance section of the office. Selected candidates will be involved in the tracking and review of OGE Form 278e and OGE Form 450 reports for White House staff, initial and annual ethics training, post-employment out-processing, and general ethics advice and guidance. In particular, we are seeking candidates with a background in financial disclosure review, Integrity.gov, and with experience providing one-on-one ethics advice.

Interested parties should contact James D. Schultz, Associate Counsel to the President and Designated Alternate White House Ethics Official at (b) (6)

I understand from Joel that he's working on getting Jenny Kim GSA tools access, so that she can better assist with Login.gov. Jenny is a member of the US Digital Service who is currently employed by DHS (she is on the DHS DS team). Because of DHS's close partnership with GSA on building Login, it would be extremely beneficial for Jenny to be able to better collaborate with TTS, and the DHS DS team lead has agreed that she should embed with that team for at least part of the time.

This appears to be an assignment, and I am wondering how we can best move it forward. I understand that, Cristina, you have received Jenny's background check confirmation information from DHS. What additional is needed here?

John, there may be a misunderstanding. Cristina assumed from your questions that this person was detailed over to 18F. This is not the case. She is a member of a cross-agency integrated project team and she is representing another agency on that team, she is not the 18F representative. If at such time, she needs to move over to be an 18F team representative, we will ensure she has an agreement in place. Does that make sense?

Hi Eric,

John Peters (cc'd) is part of our GSA OGC office. In order to get Jenny over as an assignee, he would have to draft assignee paperwork with DHS legal. Would you possibly be able to make that connection to allow that to take place? Thanks.

Hi all,

Wanted to document our decisions and next steps for Jenny Kim to be assigned from the DHS team as a PM on [login.gov](https://login.gov). Joel and I agree on the role description below, and Jenny is excited to continue working with the team.

Jenny will remain a DHS employee on assignment to the [Login.gov](https://login.gov) team. It is in DHS's interest to have a deep in-house understanding of [Login.gov](https://login.gov), and she'll be able to assist with upcoming DHS use cases, such as at CBP with Global Entry. We'll treat this like other project assignments - it doesn't have a fixed duration but we'll expect to evaluate how things are going regularly and more explicitly so after six months.

Next steps for Joel / [Login.gov](https://login.gov) team:

- \* Work with Amy Barker on assignee paperwork for access to GSA systems
- \* Submit a Priorities.md PR moving Jenny to [Login.gov](https://login.gov)
- \* Announce to [Login.gov](https://login.gov) team - believe this is good to go today

Next steps for DHS team:

- \* Announce to team - ideally we'll target our team meeting today
- \* Handle any assignee paperwork from the DHS side

Excited to make this happen.

Thanks,

Eric

I know that in many cases fiscal and procurement lawyers do interact/overlap quite frequently so I'm sharing this information one of my staff learned today from GAO. Please share with folks handling your bid protests.

All,

Here is the text of the EO on reducing regulations and controlling regulatory costs.

A few highlights:

Section 2 - Regulatory Cap for FY 2017 requires we identify at least at least two regulations for elimination whenever we issue a proposed rule.

2b. Limits the total regulatory cost for FY 2017 to zero.

2c requires that any new incremental costs associated with new regulations be offset by the elimination of existing costs associated with two regulations.

2d Specifies OMB will provided guidance on implementation.

Section 3 requires beginning in FY 2018 that for each regulation that increases costs, the offsetting regulations be identified.

Section 3c - prohibits issuance of any regulation not included in the most recent Unified Regulatory Agenda.

Section 3d  
specifies that during the Presidential budget process, that OMB will give agencies a total incremental cost allowed for new regulations. That total may allow an increase or require a decrease.

----- Forwarded message -----

All - The President signed this executive order this morning (attached is an unsigned version).

We are in the process of developing the OMB guidance required by Section 2(d). To assist in this effort, we would appreciate it if you could identify by COB today specific questions concerning the implementation of Section 2 that you believe OMB should address in its guidance.

Thanks.

I am forwarding the latest Executive Order on reducing regulations along with a synopsis prepared by Jeff Koses, GSA's Senior Procurement Executive. Essentially, for every regulation an agency promulgates it must eliminate two regulations. The EO does not appear to cover internal facing regulations (such as the FTR and FMR) See Section 4(b) of the EO. We will surely be receiving additional guidance in the coming weeks.

Please be aware of White House Chief of Staff Priebus's memo announcing a regulatory freeze pending review.

There is one FAR rule at the Office of the Federal Register which has not yet been published. (non-retaliation for disclosure of compensation information).

We're working with the Regulatory Secretariat to pull it back.  
Also, I am awaiting confirmation that there are no GSA rules at OFR.

Jack,

Last evening the President's Chief of Staff signed a memorandum freezing all regulations (see attached). Section 2 of this memorandum requires agencies immediately withdraw regulations from the Office of the Federal Register (OFR). This needs to be done as soon as possible. For instance, we know there was at least one proposed rule regarding the FAR pending at OFR on Thursday. There may well be other GSA rules due to be put on public inspection at OFR on Monday. Your acting regulatory policy officer (sometimes called "regulatory second") has been informed of this requirement and should be working on the paperwork necessary to withdraw these rules. I strongly suggest you work with them to make sure timely compliance today. More guidance may be forthcoming.

Thanks and let me know if you have any questions,

Dear Colleagues,

Please see attached OMB Memorandum M17-16, from OMB Acting Director Mark Sandy, titled "Implementation of Regulatory Freeze."

This Memorandum provides further guidance on implementing the Chief of Staff Memorandum of January 20, 2017, titled "Regulatory Freeze Pending Review", which is also attached. In summary, the OMB Memorandum provides guidance on the postponement of the effective dates of final regulations that have been published in the *Federal Register* but are not yet in effect, further guidance on withdrawing rules that have been submitted to the *Federal Register* but have not been published, and more information on potential exceptions.

In addition, M17-16:

- Asks that agencies withdraw all rules that are currently under OIRA review; and
- Clarifies that once an agency receives clearance to move forward on a rulemaking, agencies should still follow the significance determination process outlined in EO 12866.

Finally, the OMB Memorandum includes a general statement that civil monetary penalty adjustment regulations that were due this month pursuant to the 2015 amendments to the Federal Civil Penalties Inflation Adjustment Act of 1990, and were not significant regulatory actions under EO 12866, can be considered to fall within the "statutory or judicial deadline" exception to the Regulatory Freeze Memorandum.

Please let us know if you have any questions regarding the implementation of this Memorandum.

Best Regards,  
Dom
